

## Windstream Enterprise announces strong OfficeSuite UC® growth

August 30, 2018

### Demand for award-winning UCaaS/CCaaS solutions driven by cloud-focused strategy, ongoing product enhancements

LITTLE ROCK, Ark., Aug. 30, 2018 (GLOBE NEWSWIRE) -- [Windstream Enterprise](#) (WE), a leading supplier of advanced network communications, announced today that OfficeSuite UC®, its flagship UCaaS solution, surpassed 300,000 seats on the platform in the second quarter, representing 20 percent growth year-over-year.

 [0\\_medium\\_image](#)

“Improving employee productivity and customer engagement are critical IT imperatives for most businesses,” said Joseph Harding, executive vice president and chief marketing officer for Windstream Enterprise & Wholesale. “OfficeSuite is just one piece of our growing UCaaS portfolio we’re investing in to help businesses of all sizes make the transition to the cloud with solutions that deliver cost-effective, best-in-class customer and employee experiences.”

Windstream Enterprise attributes the growth in OfficeSuite seats to rapid product development based on:

- User-community input quickly deployed and built on 100 percent proprietary code;
- Intuitive, easy-to-use portal with the ability to manage on any device; and
- Highly secure infrastructure with everything stored in the Cloud versus on a PBX system or handset.

As added recognition to the breadth of the company’s UCaaS portfolio, [TMC](#), a global integrated media company, recently named Windstream Enterprise’s Powered-by-Avaya XCaaS solution as a 2018 Unified Communications Product of the Year, including Avaya’s Breeze/Oceana and Equinox platforms.

In addition to its proprietary [OfficeSuite UC®](#) and contact center services, Windstream Enterprise offers its [SD-WAN Concierge™](#), [Cloud Connect](#) and industry-leading Wi-Fi solutions. It also offers a range of complementary network and communications solutions including [integrated network security](#), and access, transport and business continuity solutions including [Wavelength Services with Optical Encryption](#), [Ethernet](#) and [Fixed Wireless](#) that are collectively designed to help businesses increase productivity, improve ROI and win.
