

Windstream Corporation has entered into various transactions that may cause results reported under Generally Accepted Accounting Principles in the United States ("GAAP") to be not necessarily indicative of future results.

Pending Acquisition:

- On November 23, 2009, the Company entered into a merger agreement with Iowa Telecommunications Services, Inc. ("Iowa Telecom"). Under the terms of the agreement, Iowa shareholders will receive 0.804 shares of Windstream common stock and \$7.90 in cash per each share of outstanding Iowa Telecom stock. Windstream expects to complete this acquisition during the second quarter of 2010.

Completed Acquisitions:

- On February 8, 2010, Windstream completed the acquisition of NuVox, Inc. ("NuVox"). The Nuvox acquisition added approximately 104,000 data and integrated solution connections in complementary markets in 16 states.
- On December 1, 2009, Windstream completed the acquisition of Lexcom, Inc. ("Lexcom"). The Lexcom acquisition added approximately 22,000 access lines, 9,000 high-speed Internet customers and 12,000 digital television customers in North Carolina.
- On November 10, 2009, Windstream completed the acquisition of D&E Communication, Inc. ("D&E"). The D&E acquisition added approximately 145,000 access lines, 45,000 high-speed Internet customers and 9,000 digital television customers in central Pennsylvania.

Dispositions:

- On August 21, 2009, Windstream completed the sale of its out-of-territory product distribution operations to Walker and Associates of North Carolina, Inc. ("Walker") for approximately \$5.3 million in total consideration. These operations were not central to the Company's strategic goals in its core communications business.

As disclosed in the Windstream Form 8-K filed on May 5, 2010, the Company has presented in its earnings release unaudited pro forma results, which includes results from D&E, Lexcom and NuVox for periods prior to the acquisitions, and excludes (1) results from the out-of-territory product distribution operations, (2) all merger and integration costs resulting from the completed and pending transactions discussed above and (3) the \$6.5 million impairment charge on assets held for sale. In addition to pro forma adjustments, the Company has made adjustments to exclude the impact of restructuring charges, pension and stock-based compensation.

Windstream's purpose for including the results of the acquired businesses and for excluding non-recurring items, the results of the disposed operations, restructuring charges, pension and stock-based compensation is to improve the comparability of results of operations for all periods presented in order to focus on the true earnings capacity associated with providing telecommunication services. Additionally, management believes that presenting current business measures assists investors by providing more meaningful comparisons of results from current and prior periods, and by providing information that is a better reflection of the core earnings capacity of its current businesses. The Company uses pro forma results, including pro forma revenues and sales, pro forma OIBDA and pro forma adjusted OIBDA, as key measures of the operational performance of its business. Windstream management, including the chief operating decision-maker, consistently use these measures for internal reporting and the evaluation of business objectives, opportunities and performance.

Windstream claims the protection of the safe-harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995. Forward-looking statements are subject to uncertainties that could cause actual future events and results to differ materially from those expressed in the forward-looking statements. These forward-looking statements are based on estimates, projections, beliefs and assumptions that Windstream believes are reasonable but are not guarantees of future events and results. Actual future events and results of Windstream may differ materially from those expressed in these forward-looking statements as a result of a number of important factors. Factors that could cause actual results to differ materially from those contemplated above include, among others: further adverse changes in economic conditions in the markets served by Windstream; the extent, timing and overall effects of competition in the communications business; continued line loss; the impact of new, emerging or competing technologies; the adoption of intercarrier compensation and/or universal service reforms by the Federal Communications Commission or Congress that results in a significant loss of revenue to Windstream; the risks associated with the integration of acquired businesses or the ability to realize anticipated synergies, cost savings and growth opportunities; the availability and cost of financing in the corporate debt markets; the potential for adverse changes in the ratings given to Windstream's debt securities by nationally accredited ratings organizations; the effects of federal and state legislation, rules and regulations governing the communications industry; material changes in the communications industry generally that could adversely affect vendor relationships with equipment and network suppliers and customer relationships with wholesale customers; unexpected results of litigation; unexpected rulings by state public service commissions in proceedings regarding universal service funds, inter-carrier compensation or other matters that could reduce revenues or increase expenses; the effects of work stoppages; the impact of equipment failure, natural disasters or terrorist acts; earnings on pension plan investments significantly below our expected long term rate of return for plan assets; changes in federal, state and local tax laws and rates; and those additional factors under the caption "Risk Factors" in Windstream's Form 10-K for the year ended December 31, 2009. In addition to these factors, actual future performance, outcomes and results may differ materially because of more general factors including, among others, general industry and market conditions and growth rates, economic conditions, and governmental and public policy changes. Windstream undertakes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. The foregoing review of factors that could cause Windstream's actual results to differ materially from those contemplated in the forward-looking statements should be considered in connection with information regarding risks and uncertainties that may affect Windstream's future results included in Windstream's filings with the Securities and Exchange Commission at [www.sec.gov](http://www.sec.gov).

(A) Pro forma results adjusts results of operations under GAAP to include the acquisitions of D&E Communications, Inc. ("D&E"), Lexcom Inc. ("Lexcom") and NuVox, Inc. ("NuVox"), and to exclude the results of the disposed out-of-territory product distribution operations, all merger and integration costs related to strategic transactions and the impairment charge recognized on assets held for sale.

(B) OIBDA is operating income before depreciation and amortization.

(C) Operating income margin is calculated by dividing operating income by total revenues and sales.

(D) OIBDA margin is calculated by dividing OIBDA by total revenues and sales.

(E) Adjusted OIBDA adjusts OIBDA for the impact of restructuring charges, pension expense and stock based compensation.

(F) Adjusted OIBDA margin is calculated by dividing adjusted OIBDA by total revenues and sales.

- (A) Pro forma results adjusts results of operations under GAAP to include the acquisitions of D&E Communications, Inc. ("D&E"), Lexcom Inc. ("Lexcom") and NuVox, Inc. ("NuVox"), and to exclude the results of the disposed out-of-territory product distribution operations, all merger and integration ("M&I") costs related to strategic transactions and the impairment charge recognized on assets held for sale.
- (B) OIBDA is operating income before depreciation and amortization.
- (C) Pro forma adjusted OIBDA adjusts pro forma OIBDA for the impact of restructuring charges, pension expense and stock based compensation.
