

Windstream Holdings, Inc. ("Windstream", "we", "us", "our") has presented in this package unaudited adjusted results, which includes the results of operations of EarthLink Holdings Corp. ("EarthLink") as if the merger with EarthLink had been completed as of January 1, 2017. The adjusted results are based upon the combined historical financial information of Windstream and EarthLink for all periods presented. Operating results of Broadview Networks Holdings, Inc. ("Broadview") and MASS Communications ("MASS") are included beginning on July 28, 2017 and March 27, 2018, respectively, the dates of acquisition. The adjusted results exclude goodwill impairment, pension expense, share-based compensation expense, restructuring charges, and merger, integration and certain other costs. We have made certain reclassifications to the historical financial information of EarthLink to conform to our presentation. We have presented certain measures of our operating performance, on an adjusted basis, that reflects the impact of the annual cash rent payment due under the master lease agreement with Uniti Group, Inc. ("Uniti").

The adjusted results are presented for informational purposes only and are not intended to represent nor necessarily be indicative of what the combined company's results of operations would have been had the merger been completed on January 1, 2016. The unaudited adjusted results do not reflect any incremental costs incurred in integrating the two companies or any cost savings from operating efficiencies, synergies or other restructurings that could result from the merger. We use adjusted OIBDA, adjusted OIBDAR, adjusted free cash flow, and adjusted capital expenditures as key measures of the operational performance of our business. Our management, including the chief operating decision-maker, consistently uses these measures for internal reporting and the evaluation of business objectives, opportunities and performance, and the determination of management compensation. Adjusted OIBDAR is also used by rating agencies and lenders to evaluate our operating performance and credit worthiness. Management believes that adjusted free cash flow provides investors with useful information about the ability of our core operations to generate cash flow. We have also presented the non-GAAP financial measure operational free cash flow which is calculated as net cash flow provided by operating activities less capital expenditures and principal payments under our long term lease obligation with Uniti. Because capital spending is necessary to maintain our operational capabilities, we believe that capital expenditures represents a recurring and necessary use of cash. As such, we believe investors should consider our capital spending and principal payments due under our long-term lease obligation with Uniti when evaluating the amount of cash provided by our operating activities. We view operational free cash flow as one measure of the amount of cash available for discretionary investments or debt reduction.

We claim the protection of the safe-harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995 for this Quarterly Report on Form 10-Q. Forward-looking statements are subject to uncertainties that could cause actual future events and results to differ materially from those expressed in the forward-looking statements. Forward-looking statements include, but are not limited to, statements regarding the benefits of the mergers with EarthLink and Broadview, including future financial and operating results, projected synergies in operating and capital expenditures and the timing of achieving the synergies, reduction in net leverage, and improvement in our ability to compete; our ability to improve our debt profile and reduce interest costs; our cost reduction activities, including, but not limited to, workforce reductions and network cost optimization; our ability to defend claims made by one or more noteholders that Windstream Services is in alleged default pursuant to a certain indenture governing a series of senior notes; expectations regarding our network investments to improve financial performance and increase market share; expectations regarding revenue trends, sales opportunities, improving margins in, and the directional outlook of, our business segments; expectations regarding the benefits of our updated business unit structure; stability and growth in adjusted OIBDA; statements regarding our 2018 operational priorities; expected levels of support from universal service funds or other government programs; expected rates of loss of consumer households served or inter-carrier compensation; expected increases in high-speed Internet and business data connections, including increasing availability of higher Internet speeds and services utilizing next generation technology for customers; expectations regarding expanding enhanced services related to Internet speeds, Kinetic and 1 Gbps services to more locations due to network upgrades and expanding our fiber network; expectations regarding sales and trends of strategic products for business customers; our expected ability to fund operations; expected required contributions to our pension plan and our ability to make contributions utilizing our common stock; the completion and benefits from network investments related to the Connect America Fund to fund the deployment of broadband services and capital expenditure amounts related to these investments; anticipated capital expenditures and certain debt maturities from cash flows from operations; and expected effective federal income tax rates and our ability to utilize certain net loss operating carryforwards and the length of time we have to utilize under the 2017 Tax Act. These and other forward-looking statements are based on estimates, projections, beliefs, and assumptions that we believe are reasonable but are not guarantees of future events and results. Actual future events and our results may differ materially from those expressed in these forward-looking statements as a result of a number of important factors. Factors that could cause actual results to differ materially from those contemplated in our forward-looking statements include, among others: the cost savings and expected synergies from the mergers with EarthLink and Broadview may not be fully realized or may take longer to realize than expected; the integration of Windstream and EarthLink and Broadview may not be successful, may cause disruption in relationships with customers, vendors and suppliers and may divert attention of management and key personnel; the impact of the Federal Communications Commission's ("FCC") comprehensive business data services reforms or additional FCC reforms or actions, including actions related to unbundled network elements, that may result in greater capital investments and customer and revenue churn because of possible price increases by our ILEC suppliers for certain services we use to serve customer locations where we do not have facilities; the potential for incumbent carriers to impose monetary penalties for failure to meet specific volume and term commitments under their special access pricing and tariff plans, which Windstream uses to lease last-mile connections to serve its retail business data service customers, without FCC action; the impact of new, emerging or competing technologies and our ability to utilize these technologies to provide services to our customers; the alleged ability of one or more purported noteholders to establish that transactions related to the spin-off of certain assets in 2015 into a publicly-traded real estate investment trust allegedly violated certain covenants in existing indentures governing certain outstanding senior notes allegedly allowing the noteholders to seek to accelerate payment under the indentures; the benefits of our current capital allocation strategy, which may be changed at anytime at the discretion of our board of directors, and certain cost reduction activities may not be fully realized or may take longer to realize than expected, or the implementation of these initiatives may adversely affect our sales and operational activities or otherwise disrupt our business and personnel; the availability and cost of financing in the corporate debt markets; unanticipated increases or other changes in our future cash requirements, whether caused by unanticipated increases in capital expenditures, increases in pension funding requirements, or otherwise; for certain operations where we lease facilities from other carriers, adverse effects on the availability, quality of service, price of facilities and services provided by other carriers on which our services depend; our election to accept state-wide offers under the FCC's Connect America Fund, Phase II, and the impact of such election on our future receipt of federal universal service funds and capital expenditures, and any return of support received pursuant to the program; our ability to make rent payments under the master lease to Uniti, which may be affected by results of operations, changes in our cash requirements, cash tax payment obligations, or overall financial position; further adverse changes in economic conditions in the markets served by us; the extent, timing and overall effects of competition in the communications business; unfavorable rulings by state public service commissions in current and further proceedings regarding universal service funds, inter-carrier compensation or other matters that could reduce revenues or increase expenses; material changes in the communications industry that could adversely affect vendor relationships with equipment and network suppliers and customer relationships with wholesale and enterprise customers; the impact of recent adverse changes in the ratings given to our debt securities by nationally accredited ratings organizations and the potential for additional adverse changes in the future; earnings on pension plan investments significantly below our expected long term rate of return for plan assets or a significant change in the discount rate or other actuarial assumptions; unfavorable results of litigation or intellectual property infringement claims asserted against us; the risks associated with non-compliance by us with regulations or statutes applicable to government programs under which we receive material amounts of end-user revenue and government subsidies, or non-compliance by us, our partners, or our subcontractors with any terms of our government contracts; the effects of federal and state legislation, and rules and regulations, and changes thereto, including changes implemented by administrative agencies, governing the communications industry; continued loss of consumer households served and consumer high-speed Internet customers; the impact of equipment failure, natural disasters or terrorist acts; the effects of work stoppages by our employees or employees of other communications companies on whom we rely for service; and those additional factors under the caption "Risk Factors" in our Form 10-K for the year ended December 31, 2017, and in subsequent filings with the Securities and Exchange Commission at www.sec.gov.

In addition to these factors, actual future performance, outcomes and results may differ materially because of more general factors including, among others, general industry and market conditions and growth rates, economic conditions, and governmental and public policy changes. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. The foregoing review of factors that could cause our actual results to differ materially from those contemplated in the forward-looking statements should be considered in connection with information regarding risks and uncertainties that may affect our future results included in our other filings with the Securities and Exchange Commission at www.sec.gov.

- (A) Adjusted results of operations are based upon the combined historical financial information of Windstream and EarthLink for all periods presented. The adjusted results assume the merger was completed on January 1, 2017. Operating results for Broadview and MASS are included beginning on July 28, 2017 and March 27, 2018, respectively, the dates of acquisition.
- (B) Adjusted OIBDAR is adjusted OIBDA before the annual cash rent payment due under the master lease agreement with Uniti.
- (C) Adjusted OIBDA is operating income before depreciation and amortization, excluding goodwill impairment, pension expense, share-based compensation expense, restructuring charges, merger, integration and certain other costs as further discussed in Note (A) on page 7.
- (D) Margins are calculated by dividing the respective profitability measures by total revenues and sales.
- (E) Adjusted capital expenditures includes applicable amounts for EarthLink for the periods prior to the merger date of February 27, 2017 and excludes post-merger integration capital expenditures for Broadview and EarthLink and amounts related to Project Excel, a capital program completed in 2017 funded entirely using a portion of the proceeds from the sale of the data center business completed in December 2015.

(A) Adjusted results of operations are based upon the combined historical financial information of Windstream and EarthLink adjusted to exclude merger, integration and other costs related to strategic transactions, restructuring charges, pension and share-based compensation expense for all periods presented. The adjusted results assume the merger with EarthLink was completed on January 1, 2017. Operating results for Broadview and MASS are included beginning on July 28, 2017 and March 27, 2018, respectively, the dates of acquisition.

(B) Shared expenses are not allocated to the segments and primarily consist of accounting and finance, information technology, network management, legal, human resources, and investor relations, that are centrally managed and are not monitored by management at a segment level.
